

# HR STRATEGIC PLANNING

## Strategy = Success

HR strategic planning workshops are an effective way of setting your team up for success. Our experienced facilitator will conduct a comprehensive review of your HR issues and priorities derived via feedback from key people within your organisation, in order to identify opportunities and develop a strategy map. Your team's purpose and vision will be clearly defined and supported by the development of your strategic objectives, projects and priorities, which will form part of your strategic HR Plan. Performance indicators will then be provided to enable ongoing monitoring of the effectiveness of implementation.

<b>HR Strategic Planning Workshop</b>
